

# V.V.P. Engineering College

## Department of Computer Engineering

---

### Vision and Mission of the Institute

#### Vision

- To be an exemplary institute transforming students into world-class professionals with human values

#### Mission

- Providing, nurturing and maintaining academic environment for strengthening technical foundations of students along with ever-learning attitude for sustainable solutions of real-world problems
- Fostering innovation, creativity, team-spirit, entrepreneurship and leadership through various activities for overall development of students
- Imbibing human values through transparent and accountable governance in all aspects.

### Vision and Mission of the Department

#### Vision

- Transforming students into skilled professionals, good human beings and responsible citizens with moral values committed to serve the mankind.

#### Mission

- Providing a base for active learning, critical thinking and engineering judgment coupled with business & entrepreneurial skills.
- Developing projects providing sustainable solutions of problems pertaining to society.
- Providing a foundation of computer programming enabling them to adapt usage of modern tools and technologies and promote life-long learning in today's technology-driven society.
- Creating and disseminating knowledge that incorporates professional behavior, strong ethical values and innovative research with a commitment to the progress of the mankind.
